Garbage management is a big problem in most of the cities in Nepal. Write a letter to the editor of the newspaper in the daily newspaper in a way of solving garbage problems.

Nepal
December 23, 2012

To the Editor
The Kathmandu Post
Kathmandu, Nepal

Dear Sir,

I would like to inform all the people on the topic "Solving Garbage Problem".

There are many reasons why this becomes a serious problem in most of the cities in Nepal. Unmanaged and unscientific waste management is the main reason. Everyone produces a huge amount of waste. So, it is very easy without proper planning and management to cause a major challenge and damage to the environment.

There are lots of public awareness programs and campaigns from the government side. But still there is no significant change.

They are lack of public awareness, unawareness of basic knowledge about waste management and lack of proper regulation of garbage by the concerned authorities, unmanaged disposal of waste materials everywhere. So, all from every side should be aware of the effects of garbage and they should be aware of the effects of the lack of garbage disposal. The concerned authorities should be aware of the effects of garbage and should be responsible to manage waste materials.
